## ABOUT US

Our proficiency in technology and love of the arts form the basis for a technology-fueled and artistically-driven design and install firm that has the ability to both listen to and act upon your desires in the creation of your lifestyle systems. We want to make your home work for you. We are experienced professionals that provide excellent, personal service and stand behind our work. We provide and install the best products we can source in every class, and we make sure they make sense for your project. We won't try to sell you something you don't need but we will offer you the best you can afford at a great value with a name and face behind it

Go **GREEN** with **US**

Ask us how to make your home energy efficient with the very latest in technology.

Serving the greater Chicagoland since 2003

Home is where fun and comfort come together. It should be the place where you can kick back, take a deep breath, and truly relax. A system installed by Home Control Works enhances your living environment through convenient controls and plenty of entertainment options.

Since 2003, Home Control Works has been a leader in home integration. Our goal is to provide our customers the service, entertainment, technology, and most importantly, the controls that allow them to effortlessly enjoy their living environment to the utmost.

Home Control Works offers competitively priced and easy-to-operate systems ranging from a few hundred dollars to several hundred thousand dollars, based on the goals and objectives of our customers. Regardless of the size, our mission is to provide the best workmanship and experience for our customers.

## Products & Services

**No more annoying glare** from the sun on the TV. With Automated Shades you can have your shades programmed to automatically drop when the sun is on them and come back up at night so you can enjoy the night sky. Also, using a programmable thermostat in your home is one of the ways you can save energy. Program the lighting to turn on and off according to pre-established scenes or environmental sensors.

**Keep a close eye on your property** by installing cameras inside and outside your home. Connect them to the network so you can monitor them from anywhere in the world.

**Bring the Movies Home.** From very simple economical systems to extreme home theater and automation. We will work with you to design a system that meets both your desires and your budget.

**Relax on the patio** listening to your favorite tunes through the whole-house audio system.

**Enjoy master control** of all systems at the touch of a button from a user friendly touchscreen device. The automation system is the key to a fully integrated home.

**Communicate** in your home like never before. Whether you are checking who just rang the door bell, announcing to everyone that supper is ready, or speaking with someone in another room, you can do so with ease!

*We make your home work for you!*
